## Certification Programs

Detroit Testing Laboratory provides consumer product testing and is actively involved in sponsoring and administering certification programs for the bunk bed industry, public playground equipment and surfacing industry and Protective Eyewear Certification Council (PECC).

These programs are conducted in accordance with ANSI Z34.1-1993 for Certification-Third-Party Programs for Products, Processes and Services and appropriate standards. All programs involve, at a minimum, product evaluation and a visit by DTL inspectors annually.

### **Bunk Beds**

The U.S. Consumer Product Safety Commission (CPSC) since 1994 has recalled more than a half-million bunk bed units. In response to deaths due to bunk beds, DTL became the sponsor and administrator of a bunk bed certification program in 1994.

### **Public Playground Equipment & Playground Surfacing Material**

DTL serves as the administrator for the International Playground Equipment Manufacturers Association (IPEMA) certification program. Testing is performed to ASTM F1487 Standard Consumer Safety Specification and ASTM F1292 Standard Specification for Impact Attenuation of Surface Systems Under and Around Playground Equipment.

### **Protective Eyewear**

DTL also serves as the administrator for the Protective Eyewear Certification Council (PECC). Testing is performed to ASTM F803 Standard Specification for Eye Protectors for Selected Sports and ASTM F1776 Standard Specification for Eye Protective Devices for Paintball Sports.

### **Juvenile Products**

Since 1981 DTL has been an industry leader in juvenile product testing. The manufacturers we have satisfied are both domestic and international. Products include:

- Carriages/Strollers
- Full-Size Cribs
- Walkers
- Gates/Enclosures
- High Chairs
- Play Yards
- Non-Full Size Cribs
- Portable Hook-on Chairs
- Toddler Beds

### **Listing and Labeling Programs Other Product Testing**
